Book 1

# Chapter 1 - The Library

Once upon a time, there was a girl named Anica. She loved to read. One day she asked her mom if she could go to the library to get some books. She said “Yes”. She decided to take the path through the forest. On her way, she found a book on the ground. So, she took it to read. When she got to the library, she chose 2 books to read. One was called “The Adventures at Night”. Another one was called “All About The Earth”. Then she went home.

When she was at home, she picked which book she would read first. She wanted to pick the book she found on the ground. When she opened the book up, the first page of the book was about dinosaurs. She looked at the page very hard and said “I wish I was in dinosaur times” and something happened! She went inside the book!

When she was in dinosaur time, she found a whole bunch of paths. She thought the book had a map and she was right. It did have a map! On the map, there was an “X” so she followed the map. The map said that she should go down the third path so, she did. Next, she had to go over the river. She found a brontosaurus. She asked the brontosaurus if he could lift her over the river and he said yes. On the other side, she found a T-Rex. It chased her!

# Chapter 2 - The T-Rex

Anica ran and ran and ran. While she was running, she found a tree. She hid behind it so she could think of a plan. She got an idea. She made a stegosaurus out of leaves and branches. The T-Rex got distracted by that and Anica ran away. Then she checked her map. It said that there is one more place to go. To the volcano!

Anica climbed the volcano and at the top she found another book and a puzzle piece. She took the puzzle piece and put it in her pocket. Then, she thought if the book could take her here, it could also take her back again. She wished that she could go back home and “poof” she was back home. She took her two books and her puzzle piece and put them in the drawer and went to bed.

That was quite an adventure! But... It’s just the beginning.
